SUPERINTENDENT'S REPORT

To the School Board and Citizens of Lempster, I herewith submit my first annual report as Superintendent of Schools:

The School buildings were repaired during the summer, but there is much to be done if we are to continue using the buildings. It would seem wise to speed up efforts to obtain a new building adequate to provide for all the pupils, and equipped to meet the needs of the total educational program.

The present plan of placing money in a capital reserve fund is a good approach to the solution of the problem but it is too slow. The need is now! Efforts to obtain additional state aid for building purposes, as well as transportation, should be encouraged.

The two teachers are doing an effective job in spite of physical handicaps of the buildings. There is need for greater participation on the part of parents in helping the boys and girls to have a wider variety of experiences in community living. More opportunities for working and playing together in Lempster, as organized groups with local leaders, would do much to increase the interests of the young people, and help to attract people to the community.

The programs presented by the pupils, in recognition of special holidays and in prize speaking, have been well done under the direction of the teachers.

I wish to express my sincere appreciation for the cooperation and assistance of the school board, teachers and parents during the short time I have been with you. I hope that I may serve you effectively and efficiently in the solutions of our common problems. The boys and girls are here—let us give them all that is needed for competition and participation in our society.

Respectfully submitted,

RALPH H. MEACHAM, Superintendent
